**Storage:** Once opened, store in a cool, dry, dark place or refrigerate. Solidification or clouding may occur below 70°F. See website for contraindications and more information.

Fermented Cod Liver Oil (FCLO) is a rich source of essential nutrients, including natural Vitamins A & D, Omega-3 fatty acids (EPA & DHA), Vitamin K, and antioxidants. It also contains vital trace minerals like iodine and phosphorus, which contribute to overall health. Nutrient concentrations vary by batch—visit [www.SolutionsPetProducts.com](http://www.SolutionsPetProducts.com) and match your batch number for detailed levels of Vitamins A, D, and more. Adjust dosage as needed to meet specific nutrient requirements for humans or pets, if desired.

Vitamins A and D in FCLO support neurological, immune, dental, bone, skin, cardiovascular, and ocular health, while promoting fat metabolism. This oil is rich in Omega-3 fatty acids (EPA & DHA), and fermentation boosts bioavailability, enhances fat-soluble vitamins, antioxidants, and probiotics, and reduces oxidation. Sourced from fresh, MSC Certified Sustainable North Atlantic Cod Livers, this FCLO is made fresh in-house, ensuring the highest quality, freshness, and safety from radiation-affected waters like Fukushima.

#### Usage guidelines:

**Humans:** Suggested Vitamin D intake is 2,000–10,000 IU/day for maintenance. Consider testing through [UltraLabTests.com](http://UltraLabTests.com) or [SelfDecode.com](http://SelfDecode.com) to customize your intake.

**Pets on Complete Diets:** Max 75 IU Vitamin D/10 lbs (4.5 kg) body weight/day.

**Pets on DIY Diets:** Max 300 IU Vitamin D/10 lbs (4.5 kg) body weight/day.

For accurate dosing, consider lab testing through VDI Labs.

## Fermented Cod Liver Oil

Certified Sustainable Seafood-MSC [www.MSC.org](http://www.MSC.org)  
Liquid Herbal Extract 8 Fluid Ounce(240mL)

**Ingredients:** Raw, Fermented \*Cod Liver Oil.
